

Release Liners

54#

Product Application & Description

Our 54# kraft release liner is supercalendered to provide a hard, smooth, caliper controlled surface. This release liner is silicone coated on one side and perfect for applications requiring precision die cutting such as roll label.

78#

Product Application & Description

Our 78# release liner is a bleached, clay coated, kraft which is silicone coated on one side and offers good lay flat for sheet applications.

90#

Product Application & Description

Our 90# release liner is a two sided poly coated product which offers exceptional lay flat and smooth release for sheeted applications.

Shelf Life & Storage

It is recommended to consume all materials within 1 year from date of purchase. Best if stored in a controlled environment (72°F and 50% RH) and out of direct sunlight.

Volume Dependent

Custom release liners may be obtained on custom specifications.
